NEW

# Evidence

With its new **Evidence** collection of table glassware for bistros, brasseries, bars and even caterers, Chef&Sommelier unveils a perfectly balanced design. With its short leg and angular goblet, enhanced by the brilliance and finesse of Krysta, the Evidence collection is the ideal mix of practicality and quality. The four capacities of the glasses of this collection allow the professionals of the restoration to ensure effectively and elegantly the service of wines, champagnes and prosecco or beers (in particular with the 45cl).

This new range is obviously the new asset for bars and restaurants with a relaxed atmosphere.

**EVIDENCE**

In 2023, Arcoroc™ offers a new solution for modern, functional and affordable glassware. **Silhouette** reinvents the brand's classic shapes with a more contemporary angular parison and straight leg. The height and size of the glasses in this collection have been designed to help the daily life of catering professionals. Easy to handle for storage and washing, Silhouette combines functionality and elegance. This new Arcoroc™ collection will fit perfectly to the needs of breweries and bistros that are looking for timeless glassware.

**LCE** - Lined and CE Stamped  
**CE** - CE Stamped  
**LINED** - Lined only  
**UKCA** - UK Conformity Assessed marking

New generation of lead-free crystal, combining superior strength with aesthetic excellence. Krysta™ products are fine, lightweight, extremely transparent, designed for intensive daily use and highly resistant to shocks and detergents.

This label certifies that the product is made with only the highest quality glass with an exceptional level of purity.

Our Fully Toughened / Tempered ranges offer an increased life span, increased strength, thermal shock resistance and safer breakage pattern.

Effervescence Plus: A laser is used to create delicate nucleation points within the base of the bowl, which are designed to agitate the sparkling wine releasing a gentle and constant helix of bubbles.

Very thin rim to convey the subtlety of the taste and aromas. The fine rim (0.8 - 0.9 mm) creates pleasant feel against the lips: one forgets about the glass and can pay full attention to the wine.

Completely safe for service: If a shock manages to rupture the shell of the fully toughened glass, the resulting broken glass shards are not sharp to the touch.

Fade-resistant surface and pattern even after 2000 industrial washes.

Items especially designed to be stacked.
