

ARCOROC

COLLECTION 2024/25

Innovative glass for a better world

World leader in tableware, the Arc group creates everyday innovative and sustainable glass solutions to enjoy eating, drinking and home experiences.

Through its Luminarc™, Arcoroc™, Cristal d'Arques™ Paris and Chef&Sommelier™ brands, Arc is aimed at both individuals and professionals. The Group is present in many markets, in particular that of mass retail, hotels, restaurants, bars and cafes, wine merchants, and collective catering (schools, hospitals, retirement homes, and company canteens). It also provides tailor-made solutions for manufacturers and promotional items.

Committed to a Corporate Social Responsibility approach, the Arc group invested 5 million euros in Research & Development in 2022 and reduced its CO₂ emissions by more than 23% per ton of glass produced between 2010 and 2022. The Arc group is also actively contributing to the transition to a new circular economy model, including offering innovative and sustainable glass containers as alternatives to single-use plastic.

With production sites in France, the United States, China and the United Arab Emirates, the Group produces more than 4 million items every day. Arc employs more than 7,000 people and generated sales of 900 million euros in 2022.

Arc, innovative glass for a better world

www.arctableware.com

Climate Roadmap & Circular Economy

Arc has initiated Arc Responsible, a program built around 7 topics whose implementation is planned until 2030. The aim of this program is to reduce the environmental impact resulting from the design, manufacture, use and recycling of its products.

More info about
Arc Responsible

Arc has acquired unique expertise over the years in the areas of food service, bars, gastronomy, oenology and Food to go & Delivery. With its two brands, Arcoroc™ and Chef&Sommelier™, Arc perfectly meets the needs of hospitality and restaurant professionals.

Chef&Sommelier™ offers a broad range of professional tableware, glassware and cutlery solutions.

The brand represents an art of living that embodies the richness of French gastronomy and oenology.

Chef&Sommelier® represents elegance, expertise, and innovation for the hospitality industry and wine tasting. Chef&Sommelier®'s innovative creations meet the expectations of professionals whose goal is to provide a showcase for their expertise, awaken the senses, and create unforgettable tasting experiences.

ARCOROC

It's all part of every day and every service.

At Arcoroc™, we know this very well; we have been creating tableware products since 1958.

This has led to an unrivalled presence, made possible by our unique know-how and constant quest for innovation in materials and design.

In addition, Arcoroc™ develops sustainable product solutions that are easy to transport, healthy, hygienic, and have a reduced carbon footprint, so that together we can build the responsible and fair catering of tomorrow.

Arcoroc™ has developed a range of innovative and functional global tableware solutions, designed for intensive use in the catering industry, which is now recognized worldwide and makes us the preferred partner of the world's leading hotel, restaurant and bar chains.

The *Exaltation* collection, made from extra-strong Krysta crystalline glass, pushes the technical boundaries to enhance the tasting experience. Its flower bud-shaped aromatic chamber and the way it delicately deposits the liquid in the mouth exalt the sensations. Particularly appreciated for its rounded bowl, the Exaltation collection is available in both wine and performance flute forms.

Spectacular visual effect!

EFFERVESCENCE PLUS

A laser is used to create delicate nucleation points within the base of the bowl. These points are designed to agitate the sparkling wine releasing a gentle and constant helix of bubbles, delighting the eyes and taste buds alike.

The Autonomy concept has been designed to make mealtimes easier for people losing their independence. Developed in collaboration with healthcare professionals, this collection is both technical and functional. The tumbler has an ergonomic design, with a tall shape for drinking through a straw and a wide rim to prevent problems with swallowing. For Autonomy plates see p. ?

Decanters for the sommeliers

Chef&Sommelier decanters are useful tools for sommeliers and waiters to magnify wines. Here is how to use them properly.

C&S CARAFES	To decant	To oxygenate
Explore* C&S	✓	
Macaron* C&S		✓
Opening C&S	✓	
Open' Up* C&S		✓
Decanta ARCOROC	✓	

*GRIPPING DOME

To decant:

Effective to remove and retain deposits within the wine, particularly in mature or bio wines.

To oxygenate:

When vigorously shaken, the decanter develops the aromas of young wine, this is due to the angular shape

KRYSTA™

Gastronomy professionals are searching for glasses that satisfy their needs in terms of **perfection and sophistication**.

Their desire: Splendidly elegant table settings with **fine, lightweight, extremely transparent** products.

Their professional needs: **Intensive daily use** requires products that are **highly resistant to shocks and detergents**.

To meet these twin challenges of **aesthetic excellence and resistance**, the Arc Research Centre is introducing a **new generation of lead-free crystal**: **Krysta™**; The high-performance crystal glass.

SUPERIOR STRENGTH

The Arc Research Centre has developed a crystalline material, Krysta™, combining **superior strength with exceptional finesse**.

Finer and stronger: the Krysta™ innovation.

With a thickness of 1.1 mm at the rim, Krysta™ is 30% stronger*

- **Savings across the entire chain: fewer breakages and chipping during transportation, storage, washing and polishing.**

*than other standard crystal glasses on the market.

COMPLETE TRANSPARENCY

Krysta™ is one of the **purest and most transparent crystal glass** on the market.

The perfect mastery of its composition, the quality of the sand used, and fusion at a very high temperature gives Krysta™ perfect transparency.

- **Tables enhanced by the sparkle of Krysta™.**
- **The visual aspects of every wine respected to perfection.**

LONGLASTING BRILLIANCE

Krysta™ boasts extreme, long-lasting brilliance.

After 2,000 professional dishwasher cycles, Krysta™ is **as brilliant and transparent as ever**.

- **Glasses that bring a special brilliance to your tables.**
- **Dinner services with lasting sparkle that you will be using for a long time.**

PERFECT ACOUSTICS

Krysta™'s exclusive composition gives it a **clear, pure sound** in keeping with the tone of the finest crystals.

- **The allure of Krysta™: A unique shine coupled with a distinct sound for a refined sensory experience.**

FULLY TEMPERED GLASS

For professionals, breakage problems are a regular occurrence.

In order to increase the lifetime of product by 10 to 50 times, in 1958, our research and development center developed and perfected since then, a technical process known as « tempering ».

This process provides products with excellent resistance to heat and mechanical shock.

Our items are fully tempered.

Savings in terms of budget and restocking costs:

a tempered glass can be up to 5 times more resistant than an item that has not undergone any specific treatment process.

Tempered products resist to temperature variations till 130°C:

they can thus be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

*except for So Urban - thermal shock resistance 110°.

Completely safe for table service*:

when a shock or series of shocks manage to rupture the exterior shell of the tempered glass, the resulting glass shards are not sharp to the touch*.

*According to the thickness. Cannot be applied to tempered Opal.

Arcoroc™ and Chef&Sommelier™ cutlery is **designed for intensive and professional use.**

The **reliability** and **durability** is **underpinned by strict specifications and rigorous checks at each stage of the manufacturing process.**

Most of our collections are done in 18/10 - AISI 304 stainless steel, what is ideal for use in **high-quality cutlery and to guarantee resistance**, the thickness of the cutlery is examined in minute detail.

Some of our Arcoroc™ collections are done in 18/0 - AISI 430 performance polished stainless steel, also **resistant and designed for a long life.**

Each piece of our cutlery has been designed to combine **elegance with perfect ergonomics and balance.**

Our cutlery is **wash resistant and respects dinnerware material** by avoiding **scratches.**

The **bending strength and torsion resistance** has been designed to be above the requirements of the industry.

Regarding our knives some are available in both solid handle and hollow handle formats.

Our solid handle knives have been created to balance weight with design and use the finest quality stainless steel.

Our hollow handled knives use the traditional 3 piece composition, highest grade 18/10 - AISI 304 stainless steel handle (2 piece) and high grade (AISI 420) hardened knife blade (3rd piece), to give the optimum in quality, longevity and design. All of our cutlery collections are dishwasher safe.
