

FULLY TOUGHENED/TEMPERED GLASS

ARCOROC

Arcoroc® develops a comprehensive range of innovative and functional tableware designed for intensive use in the hospitality industry.

Arcoroc® anticipates the needs of professionals and effectively reflects their creativity and desire to satisfy their customers.

Arcoroc's® constant quest for comprehensive and reliable solutions has led to strong partnerships with major hotel, restaurant, and bar chains.

Fully Toughened / Fully Tempered

Our Fully Toughened / Tempered stemware ranges offer an increased life span, up to 15 times longer. They also bring increased strength, thermal shock resistance and safer breakage pattern, all of which bring true added value to any venue requiring a performance product.

Savings in terms of budget and restocking costs:

A fully toughened glass can be up to 5 times more resistant than an item that has not undergone any specific treatment process.

Fully toughened products are resistant to variations in temperature of 135°C:

They can thus be removed from the oven (or from a salamander) and placed directly in cold water without the risk of breakage.

Completely safe for service:

When a shock or series of shocks manages to rupture the exterior shell of the fully toughened glass, the resulting broken glass shards are not sharp to the touch.

Shock-resistant by design.

Fully tempered glassware engineered for the demands of professional service.
Resistant to thermal and mechanical shocks, elegant in form, and safer when broken.

**Heavy-duty
for daily use.**

5×
STRONGER*

01

RESISTANCE

- Up to **5× stronger** than untreated glass.
- Stronger without being thick, preserving **style and elegance**.
- **Fully tempered**: resistance applies across the entire item.

02

FUNCTIONAL

- **Heat-resistant** to a 130°C differential, compatible with hot/cold connection systems.
- High **mechanical resistance**.
- Compliant with pro-cycle washing. Surface and decoration durable after **2,000 industrial wash cycles**.

03

SAFE

- On failure, breaks into **small, non-sharp pieces****.
- Resists a **shock or a series of shocks** before reaching failure point.
- Safety Glass behaviour, according to thickness and design.

04

ECONOMICAL

- Mechanical and heat resistance deliver **less breakage**.
- Longer service life means **fewer replacements**.
- **Economical replacement budget** versus untreated glass.*

Adapted to intensive professional use. Arcoroc™ tempered articles are designed end-to-end for hospitality cycles: service, washing, thermal transitions and frequent handling.

* Versus an item that has not undergone any specific treatment process and according to the item's thickness.

** Items with Safety Glass characteristics according to thickness and design.

The So Urban range is specifically designed for restaurants, take-aways and deliveries, and covers every need from starters to desserts. In order to meet the demanding specifications of the sector, the range was co-created with catering professionals: company cafeterias, food trucks, fast food restaurants, fast casual restaurants, and home meal delivery companies
