CELEBRATES

SUMMER!

Ode to colour

We love:

Say goodbye to gloomy winter as spring brings beautiful blue skies and rainbows to our tables. Flower vases, colourful placemats, sparkling candles and mismatched white plates take us on a whirlwind tour of bright hues and the joy of entertaining.

We love:

An ode to natural elegance by the sea. Set on the fine sand, this table combines soft, soothing tones.

The linen and frilly placemats add relief and a feeling of softness, while the Diwali blue and turquoise dinnerware blend harmoniously with the transparency of the Pampille tumblers.

Freshly picked seashells and starfish, along with candelabras, add to the poetic, seafaring ambience.

We love:

We are celebrating the arrival of spring with a new table in yellow and white stripes, adorned with colourful objects and fruit to arouse everyone's curiosity and delight... The stripes can be combined with other colours to create a cheerful and varied atmosphere. White Diwali plates and Stripy and pulse Concepto tumblers are the perfect complement to this sunny, informal table!

We love:

An old-fashioned table draped with a white linen tablecloth and a beige jute runner, where elegance meets countryside. Woven straw placemats highlight the Feston plates, while the rounded Grand Chais glasses invite us to join in this fine tradition. In the centre is an old wooden bread board decorated with baguettes to create height, various breads to suit everyone's taste, not forgetting the cow butter dish for those with a sweet tooth! In the background, a veil of white and beige linen diffuses a light of infinite tenderness, creating a soft, bewitching atmosphere.

We love:

It's summer! Let's take advantage of this bountiful season to create an atmosphere of greenery and gourmet delights on the terrace. A string of lights, accompanied by artichokes transformed into candelabras, will light up our meals. Amber Concepto Stripy tumblers will sublimite the palette of colours of the sunny vegetables, transformed into original decorative elements. White Apy plates in a variety of shapes will add the finishing touch to this table to give a warm welcome to our guests.
