Super Strong Tumblers

ARCOROC
EVERYDAY PROOF

Super Strong Drinkware

Fully Toughened / Tempered ranges offer an increased life span, up to **15 times longer**. They also bring increased strength, thermal shock resistance and safer breakage pattern, all of which bring true added value to any venue requiring a performance product.

Savings in terms of budget and restocking costs:

A fully toughened glass can be up to **5 times** more resistant than an item that has not undergone any specific treatment process.

Thermal shock:

Fully toughened products are resistant to variations in temperature of 135°C: This reduces the risk of breakage for **busy venues**, using the product direct from the dishwasher. It also means that a fully toughened product is perfect for hot drinks.

Safe for service:

When a shock or series of shocks manages to rupture the exterior shell of the Fully tempered/toughened glass, the resulting broken glass pieces are **not sharp** to the touch.

100% Recyclable and Non-Porous

While other materials have come and gone, glass has remained a constant. Infinitely recyclable, **BPA free and hygienic**, glass has always been the clear choice.

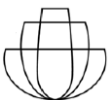

NEW

Starline

Innovation comes in many forms and as the first brand to pioneer **Fully Tempered / Toughened** glass tumblers, we have continuously evolved our offerings. **Starline** is a new range designed for seamless **inter-stacking** with a variety of glassware. Beyond aesthetics, we aimed to create a tumbler that enhances storage efficiency, making it a practical choice for business owners looking to **optimize space** and streamline operations.
