Super Strong Tumblers

ARCOROC
EVERYDAY PROOF

Super Strong Drinkware

Fully Toughened / Tempered ranges offer an increased life span, up to **15 times longer**. They also bring increased strength, thermal shock resistance and safer breakage pattern, all of which bring true added value to any venue requiring a performance product.

Savings in terms of budget and restocking costs:

A fully toughened glass can be up to **5 times** more resistant than an item that has not undergone any specific treatment process.

Thermal shock:

Fully toughened products are resistant to variations in temperature of 135°C: This reduces the risk of breakage for **busy venues**, using the product direct from the dishwasher. It also means that a fully toughened product is perfect for hot drinks.

Safe for service:

When a shock or series of shocks manages to rupture the exterior shell of the Fully tempered/toughened glass, the resulting broken glass pieces that are **less sharp** to the touch.

100% Recyclable and Non-Porous

While other materials have come and gone, glass has remained a constant. Infinitely recyclable, **BPA free and hygienic**, glass has always been the clear choice.

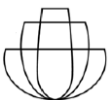

Masquerade

Arcoroc continues to push the boundaries of drinkware innovation, combining practicality with style to meet the evolving demands of the hospitality industry.

Masquerade reimagines the retro cut-crystal tumbler with a modern twist. By applying our Fully Tempered / Toughened innovation, we've created a stylish yet highly durable option for high-traffic bars, ensuring both safety and longevity without compromising on elegance.
