

Open Up

With its remarkable and iconic bevelled top, the extensive **Open Up** range has become the flagship of technical glassware design. Their shape creates an accelerated decanter effect that encourages aromas to develop. A large surface for oxygenation that closed wines require, a lower part where aromas can develop, and an upper part of the glass that then concentrates the aroma, all come together to allow instant enjoyment. Offer speedy and precise service thanks to the natural measure provided by the break in the bowl of every glass in the collection. Pair with tumblers from the same collection.
