

Fluid decanters have an ergonomic and functional design with an easy grip when serving. The heavy base provides perfect stability on the table or when transported on a tray. The five Fluid carafes ensure the service of all your drinks: fruit juice on breakfast buffets, wine at the table thanks to their natural gauge for an efficient service at a glance, water in communities. The Fluid collection has a unique stopper that can be used on 0.5L, 0.75L and 1L decanters to facilitate preparation and service by keeping ice cubes in place.

With **Fluid Colours**, Arcoroc offers a colourful version of the modern and original design of the transparent version of Fluid 75 cl. Fluid Colours is a collection of three decanters: blue, green and white, ideal for serving water in restaurants, canteens, coworking spaces or seminar rooms. The frosted tones of the carafes bring a touch of colour to your tables and are perfect for masking white lime deposits while resisting repeated washing.
